

TelaDrop Drop N Tell Shock Indicator Visually Indicates If a Package Has Been Dropped

The TelaDrop Drop N Tell Shock Indicator and included warning labels will alert shippers and handlers to take extra care with your product. Designed to activate at one of six pre-set G-force thresholds, this brightly colored device takes the guesswork out of knowing if fragile shipments were dropped.

The TelaDrop is available in resettable or non-resettable configurations.

See the TelaDrop activation instructions for guidance on activating and mounting the device.
