

Bright Red Plastic Cards Have Transparent Arrow-Shaped Indicator Windows That Turn Blue When Goods Have Been Tipped

The TelaTip Tip N Tell is a durable tamper-proof plastic card with an arrow-shaped indicator window that changes color if a container has been tipped or mishandled during shipment. This sensitive device will record a tipping event of 90 degrees or more. Housed in a bright red 2.78 x 3.80 x 0.10+ plastic card, the self-adhesive TelaTip is quickly affixed to the side or inside of a package. With the TelaTip, any concealed damage can be spotted at the time of delivery or before the delivering carrier leaves the consignee's dock.

Simple Operation: Once the metal activating tab is pulled, the TelaTip visually indicates the degree of tipping. Blue beads are displaced when a package is tipped recording the extent of tipping by turning the arrow-shaped recording window permanently and irreversibly from clear to blue. Mount vertically to the axis of tipping.

Supplied Warning Labels: As a visual alert to encourage proper handling, TelaTips come with two red on white self-adhesive warning labels per device. One goes on the package as a deterrent to mishandling while the other is affixed to the bill of lading.

DESCRIPTION

- 2.78+x 3.80+x 0.10+plastic card
- One arrow-shaped indicator window
- Two red on white self-adhesive warning labels per device

PACKAGING

- Zip lock bags or boxes
