

Hot Warning Labels Call Attention to Hazardous Surface Temperatures

Telatemp's brightly colored 1+ square Hot Warning Label with self-adhesive back adheres to any surface. Appearing green with a slightly visible outline of the underlying text when cool, the label will clear at the rated temperature revealing the word "HOT" in black block letters or Japanese characters.

Many applications exist for the Hot Warning Label such as; electric motors, gas and diesel engines, pumps, valves, furnaces, boilers, ovens, steam pipes and water heaters or any surface that could radiate excessive heat and injure workers or customers. The Hot Warning Label can help promote a safer workplace in all industries from automotive to hospitals to restaurants.

FEATURES:

- Brightly colored labels - guaranteed to stand out.
- Adhesive-backed on release liner
- Small size for easy application to uneven shaped or curved surfaces
- Reversible temperature indicator

TO ORDER:

- 140FE English Hot Warning Label
