

MXC-56789

Combined Reversible and Irreversible Humidity Indicator Card.

The Maximum Humidity Indicator records relative humidity from 50 to 90% in 10% increments. The indicators are blue crystals which dissolve when exposed to the rated RH for 24 or more hours. The highest percentage spot containing dissolved solids indicates the maximum humidity reached.

The Reversible Indicator strip shows the current humidity (10 to 100%) when the package is opened, in the event that humidity rose and dropped during shipping. Read the strip at lavender between pink and blue for the current humidity.

- Indicates: Irreversible, 50, 60, 70, 80, 90%RH
Reversible, 10 to 100%RH
- Dimensions: 4.5 x 4.5 in. (114 x 114mm)
- Shelf-Life: 1 year from date of shipment in unopened can
6 months once can has been opened
- Packaging: 25 individually sealed cards /1 gallon can
- Type: Proprietary salts with blue dye
- Minimum Order: 1 can

SHIPMENT: Irreversible temperature recording labels with ascending response temperatures of 130°F (54°C) or lower must ship via 2nd Day Air or faster and may seasonally incur an additional charge for insulated packaging.

WARRANTY: The following is made in lieu of all warranties, expressed or implied, including the implied warranties of merchantability and fitness of purpose: Seller's and manufacturers only obligation shall be to replace such quantity of the product proved by Telatemp Corporation to be defective.

LIMITATION OF LIABILITY: All physical properties, statements, and recommendations are either based on tests we believe to be reliable or our experience, but they are not guaranteed. Telatemp Corporation recommends each user determine the suitability of the products for the intended application. Telatemp Corporation shall not be liable for direct, indirect, special, incidental or consequential damages based upon breach of warranty, breach of contract, negligence, strict liability or any other legal theory.
